

- SEN Monitoring
- SEN Stages of SEND in School
- SEN Support
- If we have tried everything in school and still feel that a pupil is not making progress and/or needs more help, we will move them to SEND Support. This means that the pupil may need help and support from people outside school who are more skilled at dealing with their difficulties. This could include a referral to a service, e.g. Educational Psychology, Dyslexia Service or Speech and Language Therapy (SALT).
- Your child will have a Support Plan in school with individualised targets, which will be updated twice a year in a meeting with parents and school staff. The children will also contribute to the plan and receive additional support funded by the local authority. These plans have to be applied for and children must have at least 2 rounds of support before they are reviewed.

Pupils can access support in a number of different ways depending on their needs. Our staff have additional knowledge in specific areas of Special Educational Needs and expertise in specific areas of SEN. Our staff have links with specialist services in our local authority. If your child is still not making progress and school cannot meet their needs, school will need to seek advice from outside agencies or may need to apply for an EHC.P.
